

Dear Kirby,

SEPT 2016

I didn't properly thank you and express my gratitude for my new improved set of teeth!

I so appreciate that when the technology became available to do implants without doing BONE GRAFT you made that available to me and PULLED IT OFF!

So far my 'bite' seems to be normalizing nicely. My opposite side jaw is happier than it's been in years.

Thanks also to your compassionate staff!
They seem well suited to dealing with P.T.S.D.
dental patients. in
Take great care
& Love
Sandy
